01 - User Creation

Created the test EEE user in ServiceNow.

Work Completed

• Logged in to the ServiceNow instance with admin access.

• Opened User Administration → Users.

• Created a new user with User ID: EEE User.

• Set First name: EEE, Last name: User.

• Set the email as eeeuser@gmail.com.

• Saved the user record.

GitHub Documentation Note

This is the first setup step required for testing the ACL permissions.
