02 - Role Creation

Created the custom roles required for the ACL lab.

Work Completed

• Opened User Administration → Roles.

• Created role bb1.

• Repeated the same process for bb2, bb3 and bb4.

• Assigned all four roles to the EEE User.

• These roles are later used to control Read, Create, Write and Delete access.

GitHub Documentation Note

Roles created: bb1, bb2, bb3, bb4.
