03 - Table and Fields Creation

Created the Institution Details custom table and its fields.

Work Completed

• Opened System Definition → Tables.

• Created table Label: Institution Details.

• Created table Name: u_institution_details.

• Set Extends for to false.

• Added Student Roll Number as Auto Number.

• Added Student Name as Reference → User.

• Added Faculty Name as Reference → User.

• Added Branch as Choice with ECE, EEE and CSE.

• Added Email and Phone Number as String fields.

• Added Description as Multi String.

• Saved the table.

GitHub Documentation Note

The table is used as the record-level security test object.
